

COVENTRY

Belgotex®

10 YR COVENTRY LIMITED WEAR COMMERCIAL WARRANTY

20 YR COVENTRY LIMITED WEAR RESIDENTIAL WARRANTY

1. Belgotex Floors provides a warranty that:

- Belgotex vinyl flooring will be free of manufacturing defects.
- If such defect occurs, upon a verification of the defect, Belgotex Floors will authorise repair or replacement of the affected area.

2. This warranty does not include the following:

- Improper installation – not professionally installed or improper adhesive/trowel used. Workmanship errors should be addressed to the contractor who installed the floor.
- Installed with obvious manufacturing defects.
- Improper maintenance; dulled by soaps, detergents, harsh chemicals, dressings, one-step cleaners or wax.
- Damaged by narrow tipped heels, burns, cigarette burns, cuts, scratches, gouges and indentations including damage from improper floor protectors and furniture rests; staining caused by dyes tracked from carpet, fertilizers, coal, tar, driveway sealers, oil drippings or other similar materials; faded or discoloured by sunlight or heat generation. Windows and glass doors should be sufficiently protected by tinting, curtains or blinds.
- Problems or damage due to moisture and/or alkalinity in sub floor; discoloration or bond release from hydrostatic pressure or excessive moisture caused by flooding, plumbing and appliance leaks and water leakage.
- Different from samples or printed material in shade, colour or embossing.
- The flooring must be protected from direct sunlight, as uncontrolled expansion of the material can take place.

3. Other limitations:

- This warranty is not transferrable.
- Manufacturing defect must be reported within 3 months from the date of purchase.
- This warranty covers only properly installed and maintained floors. • Belgotex Floors excludes and will not pay for any consequential or incidental damages under this limited warranty.
- Belgotex Floors will not pay for the loss of time, inconvenience or other incidental expenses incurred.

COVENTRY SUPER CORE® CLEANING RECOMMENDATIONS:

- Liquid and Food spills should be cleaned up as rapidly as possible with an all-purpose ph neutral type liquid cleaner that is not abrasive. We do not recommend powdered cleaners, oil soaps, dish washing detergents or other soapy cleaning products.
- Shoe marks and scuffs can be removed by using a spot application of multi purpose cleaner and an abrasive scrubbing pad.
- Regular household dirt can be cleaned with warm water, or a multi purpose cleaner. Some hand wiping may be required to remove tough spots and spills. Always sweep or vacuum your vinyl before cleaning in order to remove loose dirt or particles.
- Harsh Dyes or stubborn marks can be cleaned with a blend of 50/50 bleach and water. All residual bleach must be removed with a clean damp cloth. If required 100% bleach can be used but must be sufficiently removed from the floor post mark removal.

DO NOT WAX YOUR FLOATING FLOORING:

- The surface of your vinyl floor, which is very dense and non-porous, prevents wax from penetrating and thus will build up and create a bed for yellowing and dirt collection.
- If your floor has been exposed to excessive water, for example by accident or flooding, remove the water as soon as possible by mopping and ventilate the room. A dehumidifier should be promptly turned on in the room to reduce the moisture level to normal. Do not dry the room below the normal moisture level that existed previously.

PREVENTATIVE MAINTENANCE:

- Use protective mats in front of any doors leading to the outside. This helps to prevent sand and grit from getting on to your vinyl floors. Gritty sand is any floor covering's worst enemy.
- Install proper floor protectors on furniture legs used on vinyl flooring. Protectors will allow chairs to move easily over the floor without scuffing or scratching. Clean the protectors on a regular basis to remove any grit that may have become embedded. Do not wax the bottom of furniture legs.
- To keep your floor looking it's best, dust mop or vacuum your floor at twice per week. Do it more often on floors with heavy traffic. Do not use a household dust treatment chemical of any kind as this may cause the floor to become slick or dull the finish. Simply sweep the floor as needed.
- Do not pour pails of water on your floor to clean. Excessive water can cause damage to your subfloor and your floor will only be as good as the subfloor.
- Do not allow pets with unclipped nails to walk on the vinyl floor. It could cause severe scratching to the surface.

The above list is indicative of materials likely to cause damage but is not be considered restrictive.

CAUTIONS AND MAINTENANCE:

- Furniture should be moved onto the newly installed floor using an appliance hand truck over hardboard runways.
- Do not place heavy items on newly installed floor covering for at least 24 hours after completion of the installation. Heavy furniture should be equipped with suitable non-staining, wide-bearing casters.
- Floor covering subjected to excessive heat and light exposure is subject to thermal degradation. Use appropriate window furnishing or tinting precautions to minimise potential affects on the floor covering.
- Oil or petroleum-based products can result in surface staining. Do not track asphalt driveway sealer or automobile oil drips onto the vinyl floor covering.
- Use non-staining walk-off mats. Rubber can discolour resilient floor coverings.
